- Improve community relationships
- Transition to the cloud

The Cloud Phone System of the Future – Today

Your board of directors, management team, and volunteers will experience rich platform capabilities with turnkey telecom applications.

- Seamlessly move calls between devices when you're out working in the community
- Manage incoming and outgoing messages, maintain up-to-date schedule information, and configure controls on calls and voicemail
- Auto Attendant acts as an automated receptionist while you're away

All of Your Business Communications – One Source

From voice to video, stay in touch with your controlling members, volunteers, and management staff from anywhere, whether you are in the office, or out in the community.

- Swap calls between your desk and cell phone with no hold time so you can stay mobile.
- Make calls from any device, landline, cell, or softphone and the caller ID says you're calling from your office phone.
- One phone number allows you to work from anywhere while your directors and volunteers can always reach you "in the office".

Monitor Your Productivity from Anywhere

Gain the freedom that comes with cloud-based unified communications. So much more than a dial-tone, NextOS provides instant access to your company's lifeline.

- Call Logs that allow you to view complete records of all phone usage.
- In the rare case of disaster, calls are automatically forwarded to a back up number.
- Simple Conferencing utilizes a simple "click-to-connect" call initiation for up to fourteen simultaneous participants without the necessity of a conference deck.
